Prices given are for major brand US or W. European tubes. New tubes must be in their original boxes. Standard brand, International, and Shield brand are specifically not acceptable. Russian, Chinese, and Eastern European tubes are not acceptable. We can purchase up to 50 of most types. Call or email us if you have more to sell. Please contact us first if you have tubes from military or factory bulk packs.

If you send tubes, please enclose a packing sheet listing the tubes and giving your name, address, phone, date of this list, whether you want rejects returned, and whether it is OK to downgrade to used if not acceptable as new. Please call or email us with any questions.

We reimburse UPS ground and Fedex ground rates in the continental US and parcel post from Alaska, Hawaii, and foreign countries. We will not accept CODs. Any unacceptable tubes will be returned, only if requested, at a minimum charge of \$5.

We also buy some tube testers, sockets, and dial lamps. Send us a description for our offer. As it is impossible for any "buy" list to be totally comprehensive, feel free to send us your lists for our offer.

The picture above shows common bulb styles. From left to right they are: S-bulb (also called globe or balloon); ST-bulb (also called shouldered or "G" style); T-bulb (tubular, if an 8 pin base referred to as "GT" or "GT/G"); T-bulb with a Loktal base; MT-bulb = metal tube; G-bulb (also called ball or tennis ball).

Abbreviations on the lists: "US" = USA, "Euro" = European, "SP" = single plate, "WE" = Western Electric, "ST" = ST bulb, "globe" = S bulb, "ball" = G bulb or tennis ball.

Collectible Tubes: We are always buying tubes we feel are collectible. We pay some premium for tubes with colored glass and for tubes with brass or ceramic bases. We are always seeking early tubes, laboratory samples, and developmental types. Please tell us what you have for our offer.

The Process: At this point we typically provide a seller with our UPS or FedEx account numbers, so the seller has no out-of-pocket cost. We inspect and test as required, then we pay. Turn-around time is usually about one week, depending on the complexity of the lot.

Vacuum Tubes, Inc. Used Tubes Wanted Bid List – July 2011

Used tubes must test good on our testers. Tubes followed by an asterisk (\*) are tuning eyes that must test bright enough to be useful.
